\*AQH is an abbreviation for Average Quarter Hour Persons indicating the average number of persons in a demographic listening to a particular radio station for at least five minutes during an average 15 minute segment of a given daypart - the "snapshot" of an audience. Home Front Communications provides figures for an 18+ audience, Monday through Sunday, 6:00 a.m. to midnight from the Radio USA survey from the Arbitron Company.

\*N/A denotes that the given station does not subscribe to the Arbitron media tracking service and/or report its audience numbers.

\*\*This figure represents the unique monthly viewers for Bloomberg.com, where Hays Advantage is streamed live
